What Women Want When They Test Men: How To Decode Female Behavior, Pass A Woman's Tests, And Attract Women Through Authenticity

Synopsis

Discover What Women Want in a Man and How They Secretly Test You For it! If you pay close enough attention to what really attracts women, you'll find that what women want is a man with a backbone. Women want to be with a man who knows how to take the lead and make decisions; one who has strong personal boundaries and knows how to love her like a man. Unfortunately, a lot of men have difficulty accepting the truth that many women prefer to be with a man who isn't afraid to stand up to them, who challenges them, and who refuses to be pushed around by women (or anything else for that matter). This is especially true of women who seek a more traditional male-female gender role dynamic in their romantic relationships. Even if a man knows how to attract women, cultivating a mind-blowing relationship with one requires a different set of skills entirely. Women want men who can make them feel secure – men with strong boundaries and unwavering commitment. Sadly, most dating and relationship books rarely show men how to keep a woman happy without them having to sacrifice their manhood in the process.

How to Understand Women and Pass Their Tests With Unshakeable Confidence

Men around the world have no idea that the women they know and love are testing them. These men go about their lives interacting with the opposite sex in absolute darkness, ignorant to the fact that they're being judged, appraised, approved, and rejected based on their subconscious reactions to female testing. If you had no idea that women test men and why they have to, you're about to take a journey onto a road less traveled – the more mysterious side of female psychology and how women think.

Customer Reviews

This book absolutely resonates with me. The first book I read from Bruce Bryans was What Women Want in a Man which included ten characteristics of a nice guy. I found myself in about six of them. I followed that first book with Hold onto Your Nuts (Wayne Levine) and No More Mr. Nice Guy (Robert Glover). Those three books alone were instrumental in changing how I carried myself with wonderful results. This book builds on what I have already learned and have experienced to be true. Some highlights for me: Identifies the three main test: Congruence, Compliance, and

Commitment. Reinforces the need for us men to be our own men by living by your own standards and principles. He also writes about leading through vulnerability but keeping in mind that men shouldn't lean on women before we have successfully and consistently demonstrated that we are worthy of her support. I cannot recommend this book enough.

my initial reaction to this book was pretty negative-not because of the author's explanations as to why women test. (I thought those were pretty accurate) but because of the advice about how to respond to these tests. I guess I'm changing my review because I don't know how these tests should be handled and maybe he does. My ex used to always give in to me, would do anything to please me, and I thought I loved that about him but...he's an ex. Maybe these methods are better? Anyway the "why" behind female testing is explained very thoroughly and accurately. I also appreciate the sentiment that it's not our fault (entirely). it's really hard to know when you're testing a guy. It's true for me that I don't usually know I'm doing it til the conversations over.

This is the third book of this author that I have read thanks to Kindle Unlimited; I do find merit in his work. As a woman reader, I found myself agreeing with him viz a viz women when they create tremendous drama. I found this book to resonate with me, in the sense that it's not just their man that women test, they also create drama with other women, simply out of envy, which is part of female DNA. The same solution applies in that situation, so this book is a worthwhile read for women too, on how to deal with feminine viles.

This is one of the books that I am giving my teenage sons, as I believe it will make their lives better. It has the typical grammatical errors that most ebooks do, but it's concise and filled with examples at the same time.

How come no one ever taught me this? It is maybe because most people don't know or cannot express it in words. This is an interesting book that reveals what a woman really is doing when she creates drama. I like that the book goes straight to the point and tells reader what they need to know. I finished the book in one sitting. I am very intrigued because men would not know this unless they had strong male figures to look up to one of them read it in a book. I recommend this book to people who struggle with relationships and always try to be the nice guy. If you are asking why am I always at fault this is the book for you. I gave it a 5 stars because I didn't know many of the things stated in the book and I needed to understand. I was highlighting a lot. Maybe I'm too nice of a guy

or lost sheep.

A while back, I had a very confusing situation with a young woman that left me baffled for months, trying to figure out what went wrong. After reading Bruce Bryans' book, *What Women Want When They Test Men*, I got all of the answers I needed and had a much better understanding of what went wrong and how to avoid it in the future. I came to the realization that I was attracting the wrong kind of women, how to remedy that situation and how to just walk away from the wrong ones. This book really made a difference in my life.

This book was a KICK IN THE BALLS for me! it made me recognize so many mistakes I've made in relationships and quite frankly I wish this book had come out at least 15 years ago. I feel that EVERY MAN should read this book. Fantastic real life insight from an author who has clearly been there in his own life! I am a big fan of Bruce Bryans! Keep up the great work Bruce!

I don't typically write reviews on products nor do I read all that much but since I was having issues in my relationship I decided to do some self improvements and learning her tests and how to pass them and been more than helpful and fun. I also feel this helps for the single guy too because I was out with some friends and there was a lot of congruent tests going on and I could not only overcome those but they were also fun to detect and not take them personal. However if you ask a girl about these tests, they don't exist similar to Area 51 we know it's there but it still doesn't exist.

;-)-Happy hunting
