Pottery And Poets: A Luke Littlefield Mystery (Luke Littlefield Mysteries Book 3)

Synopsis

Anthropology professor and former model Luke Littlefield is spending his summer teaching an introductory course at Cranmore College and consulting on an archeological dig on New England's Cape Cod. The discovery of a centuries old murder in Provincetown is overshadowed by a series of murders in West Hollywood by an alleged religious terrorist group called The Followers. When a routine FBI investigation unintentionally involves Luke, he must untangle a web of clues that seem to point to the involvement of one of his graduate students.

Customer Reviews

Stephen Stanley is a favorite author of mine so I maybe a little prejudice about his books. This book leads you through and archeological dig of a TB sanitarium. It sounds kind of depressing but actually is it very positive and fun. I really enjoyed it.

This interesting novel unfolds around several mysteries, both modern and historical. The settings are nicely rendered and the characters are engaging. Sloppy editing unfortunately allows minor spelling and grammatical errors to distract from the text, but the novel remains highly enjoyable.

It was a fun read but too bad the spelling & grammar hadn't been proofed. Mis-spells and poor grammar turned a fun bedtime read into a OH, NOT ANOTHER ONE distraction. Tacky, unprofessional, inexcusable.

Luke is my favorite character that this author writes about in his different stories. This guy has all the attributes a reader could want. He is good looking, witty, and talented. His life always has alot going on, which moves the story right along. This author is a very good storyteller. This is a good addition to a well done series.

A fun read. Great series. Good character development.
