## **Customer Reviews**

In my opinion, this book is a poorly written knock-off attempting to lure readers intent on purchasing Eban Alexander's best seller Proof of Heaven. This is not Eban Alexander's book, Proof of Heaven. Again in my opinion, should not allow this type of remora to sell on their site.

I felt robbed, this wasn't the book. I had to pay for this review. Very annoyed.

This was a horrible review. The person couldn't spell to save his life. I felt like I was reading a review

from a six year old. I am so upset that I had to pay over \$2.00 for this.

I didn't get to read the book. It goes from the review to the end. Please let me know what I should do. I really don't know what happened. I open the book and it goes from "Book Description" to "About the author", then Review and then it goes to the end. Is this the whole book? So where is the story?

do not read if you can't get past grammatical errors and a poor grasp of the English language. I didn't make it past the first 2 pages. I can't believe I wasted \$3 on this.

Books like this do not add value and is just clutter... Norman unpublish all your 5 pages books and publish quality materials.

This is not the book itself, but instead some guy who barely speaks English (and what he does speak is poorly spoken) who wrote 5 freaking pages about how the ACTUAL book Proof of Heaven is a good one. I doubt this fraud even read the real book.

I was expecting a whole book
