Customer Reviews

I must say that this was a very useful book. Rena did a fantastic job of balancing the recipes with the logic behind the ingredients. My only suggestion would be to maybe put the recipes in their own section to make it easy for me to get right to the recipe when I am trying to make the things she suggests.

You'll find a lot of great ideas in this book. Even if you are still very young, everyone including men will benefit from the info in this book. It's straight forward and to the point by. Perfect for a quick reference guide.

Very informative, will be trying some of the masks supplied in the book as well as eating more of the foods the author suggested for my skin and hair problems. Can't wait to try my first water fasting too.

What an Amazing book! The information found here has me inspired to try to take better care of myself! My Daughter Rena has always been a very intelligent person. I think you've truly out done yourself Baby Girl! Simply Awesome!

Author Dotson, R. Rena, have done a great job by writing the book "Naturally Reverse The Aging Process: Look 10 Years Younger Using These Anti Aging Secrets,". This is a simple written, easy to read book about the great secrets of remaining youthful in appearance. When one looks and feels younger than their real age, it is very uplifting and a great confidence booster. Buy this book

and use the time tested secrets told by Rena and get mistaken for being years younger than your actual age! Thatâ€™s really fun and sometimes you may be thought to be your childrenâ€™s sibling instead of their mother or father like this author experiences in her own life. Highly recommended if you are searching for a book that shares the wisdom to look younger than your age!

Who doesn't want to look younger. This book was probably written for women, but being a man, I found much that helps me, too. I'm probably not as concerned about growing old as women are, but I still want to look my best. Ms. Dotson had many recommendations about what to do to help our skin look better and slow down the aging process and I really liked the list of resources in the back of the book. This alone is worth the price of the book.

The author did a great job in this book covering so many ways to fight the aging process. I would refer this book to anyone who is interested in fighting against looking older.

This book goes over all aspects of beauty including hair, skin, health and tells you natural things that you should eat to support the infrastructure of your body. It was very enlightening.
