2015 International Swimming Pool And Spa Code

Synopsis

The INTERNATIONAL SWIMMING POOL AND SPA CODE (ISPSC) is the first comprehensive swimming pool code that coordinates with the provisions of the International Codes to meet the requirements of the Virginia Graeme Baker Act for upgrading pool safety. Developed with the support of the Association of Pool and Spa Professionals (APSP), the codebook encompasses the design, installation and inspection of aquatic facilities, based on the current ANSI (APSP) standards, technology, and code provisions. Coverage includes public swimming pools, public spas, permanently installed residential spas, above-ground/on-ground residential swimming pools, residential in-ground swimming pools, portable spas, aquatic recreational facilities, barriers for all residential pools and spas, and water quality and suction entrapment avoidance for these facilities. Fall protection guards for springboards that are greater than 5 feet (1.5 meters) above a pool deck are now required. The guards will significantly reduce injuries from falls from high springboards.

Book Information

Series: International Swimming Pool and Spa Code

Paperback: 60 pages

Publisher: ICC (distributed by Cengage Learning); 1 edition (June 6, 2014)

Language: English

ISBN-10: 1609834828
