Finding Adam

Synopsis

"I never expected to find someone like you." "I need to know who I am on my own." Adam Grant is ready to take charge of his own life. Instead of the corporate internship his wealthy, controlling father secured for him, he's going to spend the summer working in the mountains of British Columbia. He'll be outside his comfort zone and beyond the reach of his father's influence, the perfect environment to find himself. But he'll find something else while he's there, too... love. "I don't rely on anyone but myself. I can't afford to." Jase Miller expects life to let him down. Fighting against odds that have always been stacked against him, he's learned some valuable lessons. Don't trust anyone. Keep your feelings hidden. Look out for yourself first. But stuck in close quarters with a new trainee up on the mountain, Jase is about to find out that there are some things he still has yet to learn. "We're better together... no matter what they throw at us." Each man will have his world turned upside down, but when outside forces work to tear them apart, can they trust in the love they've found to pull them through?

Oooooooh This might be... no, this IS my favorite Dillon Hunter book so far. A little longer than his

previous ones but still a quick read that I was able to race through and enjoy in one sitting. Sooooo sweet. I really loved both Adam and Jase, and loved them even more together.

Okay, so when this story started out, Jase was on my crap list. He was willing to do some really awful things to Adam in order to make money to help his sister. I mean, good intentions there, buddy, but you don't need to be willing to sell your soul to the devil to do it. Great news: He redeemed himself. ;-) I don't want to give anything away, but there's a lot of character development here and by the end, you're just in love with these two guys and rooting for them all the way. Full of hope and light, this is yet another terrific novella by Dillon. KEEP 'EM COMING, DILLON!

Great story and wonderful characters. Story of trying to find oneself and lucky having it all at the end. Jade and Adam are wonderful pairing and usual rivalry turns into a beautiful romance. Adam ready to be himself and Jase ready to go and get what he has always wanted. Fantastic read and Dillon keeps you wanting more and truly making a great ending.

I was given this book in exchange for a honest review so here it is..... This was a great story. The story line was strong and the characters are well developed and believable. This is a story of two men living their own lives who were brought together almost by fate. Adam had always been under his father's thumb and control. His parents not happy with his lifestyle, trying to keep him away from other men, demanding he come and intern in his father's consulting business as he is going into his last year of college. Adam is ready to break the control his father has and takes a summer job in the mountains of British Columbia. Once there he meets Jase, his new roommate and mentor, who at first is rude and not so nice. Jase has been ordered by his foreman to make Adam's life miserable which would make him quit and go home. Evidently Adam's father had called with his power and money to encourage the foreman to make this happen. As time goes on, Adam and Jase become friends and eventually more. But Adam's father is determined to keep him under his control by threatening Adam that he would no longer have their support financially as he goes back for his last year of college. Confused as to what to do, Adam and Jase have fallen in love and Adam doesn't want to leave Jase. This is a journey you will want to go on with these two amazing men. A love that causes the pieces to fall together and a future that is meant to be. Loved this book and the characters. Don't miss it.

Finding Adam was such a sweet story of two young men who find one another when they least

expect it. Jase, working on a logging crew, had to become a man when he was barely legal in order to care for his sister after their mother died and Adam, still in his last year of college, is trying his wings out for the first time, in direct defiance of his father's iron fisted rules concerning his future. Adam shows up at the logging camp, ready to try something totally out of his realm of experience, not realizing that his father has already attempted to sabotage the chance he has there. Jase was told by his boss Mac to attempt to bully or force Adam into leaving because Adam's father has offered a significant sum of money to anyone who can make Adam go home again in failure, so he can continue to live under his father's thumb. Jase had his own reasons for agreeing but he hated doing it, especially once he met Adam, his new roommate. As they got to know one another, Jase was unable to continue with the plan, and things changed considerably for them both once Jase admitted what he was told to do and once Adam was aware of his father's attempted manipulation. So began a road full of bumps and detours on the way to true love and happiness. I was given an ARC by the author in exchange for an honest and unbiased review.

This is my first Dillon Hunter story and I really enjoyed it! It had everything I look for in a MM romance! Adam goes against his rigid, controlling father and takes a job for the summer in the mountains at a reforestation camp. He meets Jase who is in charge of making sure Adam quits right away, on orders from Adam's father. But things don't always work like that. As their friendship turns to something more emotional and they become lovers, Adam discovers a lot about himself and what he wants out of his life. Nothing ever seems to go right for Jase, but that changes when he meets Adam.****It had been good. Really, really good. And Jase wasn't ready for it to end. He closed his eyes, breathing in the scent of his sexy man, lying with him in Jase's favorite place. It was truly his definition of paradise. Safe, quiet, tranquil paradise. He found his voice and stood up to his father. He found Jase, and then found love. And finally, after years of searching, he found himself.****I will be looking for more from the talented Dillon Hunter!****ARC provided by the author in exchange for an honest review****
