Customer Reviews

This is a review for Sweary Coloring Book: Swear Word Colouring Book for Adults. This coloring book is hilarious. Do not purchase this book if you are easily offended by bad words. The words on in cursive with designs drawn around them. All of the backgrounds are blank. The orientation of the pages is in landscape. There are 16 words to color and there is a working print link at the end of the book. You do have to put in your email, etc in order to get to the print link. I find that rather annoying and removed one star because of it.

What better way to calm myself down than coloring swear words? I enjoy coloring because of how relaxing and meditative it is. But when I 'm pissed off, I don't have the patience to do the super-intricate patterns of many coloring books. Also, I just don't want to deal with cutesy when I'm mad. This book is perfect. The drawings are simple enough to not annoy me further, but, you know, it's swear words, and there is enough detail to keep me busy. I highly recommend this coloring book. It's great fun.

This is so much fun.... and totally relaxing! lol! I especially had fun coloring 'F*** it'.... when I colored outside the line by mistake, well, I said 'F*** it', when my marker did not work well and left weird marks, guess what I said? this is the way to get your stress out by coloring... better than just the

normal coloring books popular today. If you have gift exchanges next Christmas, this would be awesome! Especially the ones where you steal gifts... it would be the most stolen gift!

THIS is an adult coloring book! I love coloring, just started up again after a 30 year hiatus, and wow this changes the whole landscape! Definitely good for those days when flowers and mandalas just won't cut it!

Super cute pictures. I like that they are easy to color and don't take up the whole page. Also, they don't use up a lot of ink, which is great because I purchased the Kindle version (it comes with a link to go to and request the PDF version to be emailed to you- I got it very quickly). But my favorite part is the cute animals on every page. There are a total of 18 pages to color (sort of a low amount)... I attached photos of my 4 favorites. The only reason I took away a star is because I don't like the "swearybook.com" watermark on every single page :(Also, there are 3 pictures in the back that seem like page wasters because they are just of animals made up of leaves- they seemingly don't have anything to do with the rest of the book and I probably won't color them. If you are offended, do not buy this book. Move along. Simple. I have seen people give bad ratings because they don't like the fact that there is swearing in the book. Really? No need to down-rate something you don't even intend on buying or using in the first place.*I censored my photos so my review would (hopefully) not get rejected.

I suffer from anxiety and belong to a few anxiety groups online. They suggested to try adult coloring books to help a little bit, so I finally got on the adult coloring book bandwagon! So I chose to try this Sweary Coloring Book. Holy cow! I have found a new hobby. I am not as good as I wish I were at coloring well, but I know with practice I will get better. While I am going to look into getting flower and mandala coloring books, it is nice to have something more adult themed like this one. This coloring book has a rated "R" theme since it is filled with curse words and phrases. I no longer have little kids living with me in my house, so I can color these sweary coloring pages as much as I want and I won't feel guilty, and I won't be teaching any little kids words they should not be saying. There are 16 pages of swear words/phrases that can be colored. I have a favorite, but it has the "f" word in it, so I cannot say which one it is lol. I think my hubby may even try to color one or two also!

I know this sounds odd but I have such a plethora of profanity that spews from my mouth on a daily basis, It's nice to be able to color some of those words I speak..hehe I don't care too much for the

little cutesy animal designs that are incorporated with the swearing.. as if they are trying to make "cussing pretty".. Lol! I do like that there is a pdf file included as well so I can print these off and color them nicely and gift them to people whom I royally dislike just to piss them off :)) I would color so much more if all I had were swearing books... One thing I would suggest though, and this is just my opinion.. I would take out the cutesy animals, they kinda throw me off when i see them. Maybe just some mandalas, or paisleys, or even little cuss words around the bigger ones to color. Most of us are not into cute and cuddly. it makes me feel as if I am coloring in a child's coloring book when i see those types of things.

Yes, I jumped on the coloring craze and even more so when the swear word books came out. This is the best I have found so far and it's a great stress relief.. definitely keeps me from screaming these same words at people who tick me off! The book is well made, printed on one side only (yayy!) and comes with two copies of each page, one with gray and one with black for the line art. I often like to make copies of pages I want to color because I enjoy using different mediums. Many books I have seen don't allow for this easily, either the drawing goes too far into the center crease of the book (or, gasp! the horrors of a two page spread!) but this one is not like that so it's easy to copy directly from the book or even by removing the page. There is a nice empty border space around each drawing.
